Design Tool 9.1: Criteria Rubric

Directions: Make a note of the criteria teams will need to meet in your STEM lesson. Then design a rubric or rating scale so that teams can self-assess their progress and you can get an idea where they may need help. You can use the tool below as a rubric by filling in information for each criterion.

Criterion	Not Yet (0 points)	Partly Successful (1 point)	Mostly Successful (2 points)	Completely Successful (3 points)
Total Score
