

## Design Tool 10.2: Partnership Building

*Directions:* What will you do to strengthen the connections and build commonality between CTE and STEM? Think together about how you might collaborate. For example, you may choose to focus on the same teamwork skill. Or, CTE teachers may help students with a particular technology skill they need. STEM teachers may assist CTE teachers incorporate grade-level math and science objectives into a CTE project.

Partnership Building	STEM—What We Will Do to Collaborate	CTE—What We Will Do to Collaborate
Hands-on instruction		
Use math and science		
Build teamwork skills		
Use technology		
Encourage student diversity		
Build career awareness
